Age: 27
Job: engineer
Married?

Name: Bruno
Country: Brazil
Age:
Job: electrician
Married?

Name: Mayumi
Country: Japan
Age:
Job:
Married? ✓

1B The English class

Instructions

You will need: *one copy of Worksheet A and one copy of Worksheet B per pair*

- Students work in pairs. Give a copy of *Worksheet A* to Student A and a copy of *Worksheet B* to Student B. Students are not allowed to look at each other's worksheets.
- Students take it in turns to ask their partner questions about the people in the picture in order to complete the information boxes on their worksheets. For example, for the box about Frank, Student A needs to ask: *How old is Frank?* and *What's his job?* while Student B needs to ask: *Where's Frank from?* and *Is he married?* If the box relates to two people, students should ask questions with *they* where appropriate.
- Students continue asking questions until they both have all the information. If a pair of students finishes early, they can check their answers by reading out the information on their worksheet to each other.
