Rules of the game

Players play in pairs or groups of four. Each group has a coin to flip and each player has a counter. Players place their counters on the Start square. They take it in turns to flip the coin. If the coin lands on heads, they move forward one square. If it lands on tails, they move forward two squares. Players answer the question on the square where they land. If they can't answer the question they ask the question to a member of the other team. The first player to reach the Finish square is the winner.
